Sunday School Teacher—"Tommy, does not your conscience tell you when you have done wrong?" "Yes, ma'am, but it doesn't tell my mother"—Chicago News.

A hundred years ago the best physician would give you a medicine for your heart without stopping to consider what effect it might have on the liver. Even to this good day cough and cold medicines invariably bind the bowels. This is wrong. Bee's Laxative Cough Syrup with Honey and Tar acts on the bowels—drives out the cold—clears the head, relieves all coughs, cleanses and strengthens the mucous membranes of the throat, chest, lungs and bronchial tubes.

E. T. Whitehead & Co., Scotland Neck, Leggett's drug store, Hobgood.

The Eagle—I have one great advantage over you. I don't need to keep dodging automobiles all the time.

The Cow—No; but just wait till they get these airplanes going.—Scottish American.

The Tar that is contained in Bee's Laxative Honey and Tar is harmless. It is not coal tar, but is obtained from the pine trees of our own native forests. Bee's Laxative Honey and Tar, is the best remedy for cold, because it acts on the bowels—thus expelling all colds from the system. Bee's is the original Laxative Honey and Tar, and is best for coughs, colds, croup, whooping cough, lung and bronchial affections.

E. T. Whitehead & Co., Scotland Neck Leggett's drug store, Hobgood.

In the traveling circuses of France the babies of the company are put to work as clowns.

The first Turkish bath in London under municipal control was opened recently. The cost of a bath is fifty cents.

Does evil still, your whole life fill? Does were betide? Your thoughts abide on suicide? You need a pill!

N. W. for prose and facts—DeWitt's Little Early Risers are the most pleasant and reliable pills known today. They never gripe. Sold by E. T. Whitehead & Co.

An expert manicurist says that the manicure habit will cure children of the stubborn habit of biting their nails.

Any one suffering from Kidney pains, backache, bladder trouble or rheumatism will take a dose of Pine-ules upon retiring at night will be relieved before morning.

"To him that hath," said the man who loves to quote, "shall be given." "Yes," said the practical philosopher, "and to him that hath not shall be given a swift kick."—Puck.

A liquid cold cure for children that is pleasant, harmless, and effective is Bee's Laxative Honey and Tar Superior to all other cough syrups or cold remedies because it acts on the bowels. An ideal remedy for Coughs, Colds, Croup, Whooping Cough and all curable lung and bronchial affections in child or adult.

Pleasant to take.

E. T. Whitehead & Co., Scotland Neck, Leggett's Drug Store, Hobgood.

She—"Don't you consider it woman's work to talk? He—Certainly; but the trouble is, woman's work is never done."—Yonkers Statesman.

TESTING LUNGS OF CATTLE

Government Begins Investigation of Tuberculosis Among Dairy Cows.

Topeka, Kan.—A test of the health of all Kansas cattle is to be made by the government bureau of animal industry and the state live stock commissioner. The specific purpose is to ascertain whether or not tuberculosis exists among the animals. The tests are to be kept secret as much as possible because of the excitement which the discovery of the existence of tuberculosis among dairy cows would cause in the community.

John B. Baker, state live stock commissioner, has received from the bureau of animal industry his first supply of "tuberculin," a government preparation, which will be used in the tests. The government has also furnished blanks on which the results of the tests can be recorded. The only public test of dairy animals will be of the Emporia cows. The county physicians' convention there recently discussed the probability of tuberculosis existing among the cattle of the county and Mr. Baker is furnishing the tuberculin with which to make the tests. He says he sees no need of secrecy in this case, as the physicians have advertised the fact that there are symptoms of the disease among the cows from which Emporia's milk supply comes. Enough of the government preparation to test 100 cows was sent to Emporia and Dr. Richards will make the test.

"We have already made one test," said Mr. Baker, "but we're keeping the fact secret. If I should make the community in which a test has been made or is to be made it would excite the people and cause a great deal of trouble. The tests will be conducted by the county health officers. I am now working to get into communication with them. They will be furnished free with all the tuberculin they need to make the tests and we will know in a few months whether the dairy cows of the state are diseased or healthy. I have received some complaints to the effect that there are symptoms of tuberculosis among the dairy cows throughout the state and the danger is too great to allow such a condition to exist when it costs nothing to learn the truth."

In a letter received by Mr. Baker from E. B. Jones, chief of the bureau of animal industry, the latter says that the Kansas commissioner will be furnished with all the tuberculin he can use.

PAYMENT TO DELAWARES.

Each Member of Tribe to Receive \$102.50 from the Government.

Muskogee.—One hundred and twelve thousand dollars has been placed at the disposal of Indian Agent Kelley, and the Delaware per capita payment began yesterday at Bartlesville. This payment was ordered more than a year ago, and is a settlement in full of all claims of the Delaware tribe of Indians against the government.

Each Delaware will get \$102.50. The payment was made at Bartlesville April 23, Nowata, April 27, and will be made at Vinita, May 2. Each adult will be allowed to draw money for himself, and for the minors legal guardians appointed by the courts will draw the money.

Administrators will draw per capita for Delawares, who have died since October 13, 1904. There are 1,100 Delawares who will share in the payment.

The claim of the Delawares dates back nearly 40 years. It is principally for lands in Kansas, for which the government failed to settle. The claim was for \$625,000, but only \$150,000 was allowed. Of this attorneys get \$37,000, the chief beneficiaries being Walter S. Logan of New York, Senator Marlon Butler, James K. Jones, former senator from Kansas, and J. M. Vale.

According to the contract with the Indians, had the attorneys secured the full amount of the original claim, they would have had a fee approaching \$200,000. The payment will be the largest made to Indians since the Cherokee strip payment in 1894.

REFUSE FREAK IMMIGRANTS

Half-Human Creatures Brought to America for Exhibition Not Permitted to Land.

New York.—Under the names of Heinie and Fritz, two creatures that seemed to be half-human and half-ape arrived on the steamship Beidenfels a few days ago, and were not permitted to land by order of the government inspectors because of their deformity. Inspectors refused to allow them to be taken ashore at Boston, and the owner, the proprietor of a circus, has appealed to the United States government.

The steamship took the creatures aboard at Ceylon, along with animals and members of a troupe of a circus.

Heinie and Fritz are four feet six inches tall. Both are deaf and cannot talk, and make a peculiar grunting noise. They have tiny feet and hands. Their heads are the size of coconuts and are covered with the hair of an ape from an inch above the forehead. They cannot stand without supporting themselves and have made the deck, at the bow, their quarters, where they curled up like rope basking in the sun. Both smoke cigars and eat cake. Heinie smoked too much recently and suffered from the effects.

Beer Cures Cancer.

Dr. Doyen, the eminent French scientist, in the course of a paper read before the medical congress at Lisbon, announced the discovery of the fact that inoculation with the yeast bacillus of beer cures cases of cancer.

PARKER'S HAIR BALSAM

Changes and restores the hair. Promotes a luxuriant growth. Restores to the scalp the healthy condition. Cures itching scalp, dandruff, and all hair troubles. 25c. and \$1.00 at Druggists.

CHURCH CHASES SALOON.

Religious Edifice on Wheels Moves About Town Wherever Most Needed.

Philadelphia.—There is in Philadelphia a lively little church which is indulging in a merry chase after saloons of this city, much to the discomfort of the men behind the bars.

This little religious edifice is on wheels, and it has instigated one of the liveliest campaigns against the selling of liquor ever waged.

This little church always has been a mission church, going hither and yon wherever it seemed to be the most needed, but it has only recently entered so actively upon the temperance field. Wherever the pastor of this perambulating church and his assistant, Harry A. Machee, learn that a man is applying for a license in a new district they wait until the application has been filed and then, picking up their little church, walk to within a few feet of the spot, plan their edifice and then enter protest against the establishing of a saloon.

Fourteen times—and it has been working only a few weeks—has this church chased a would-be saloonkeeper out of business. It always has a congregation of more than 50 souls, and so can rightly term itself a thoroughbred church, with all accessories accorded to a stone edifice. The congregation almost gleefully follow their vagrant church and they have grand rallies meetings after every successful fight against the establishment of a saloon.

It will not be long before other mission churches on wheels will enter this crusade against the selling of liquor, and they will be able to put up one of the biggest fights ever waged against the saloonkeepers. They have the law with them and the sheer humor of the situation will render a would-be saloonkeeper helpless with the judge.

This mission is a substantial-looking wooden church with a seating capacity of 250. The pastor is a man of means and a number of influential temperance advocates are backing him, so that the money is always forthcoming when he desires to lease a lot for his church, and he feels it no hardship if the exigencies of the case make him deem it wise to set the wheels of his church moving before a lease has expired. He always secures the land for the very shortest possible time, subject to renewal, and thus, while not binding himself and his church unnecessarily, he lends an air of permanency to the action, which justifies him in telling the judge that he does not know how long he will remain.

TROUBLE OVER TOWN LOTS

Legislation Will Be Needed to Right Matters in Indian Territory Town Sites.

Muskogee, I. T.—There are 115 towns in Indian territory in which the government has not yet completed the sale of town lots. The first towns that were appraised and the lots sold under government supervision are now making final settlement and every day the Indian agent sends out hundreds of notices to the principal chiefs that final payment has been made on lots in the various towns.

Some peculiar conditions have arisen and without relief legislation the government will never be able to close the townsite business. In some of the towns there are lots which are not worth the appraised value, and they have never been sold, as the government cannot accept less than the appraised value. There will have to be legislation allowing authority to make disposition of such property.

Again there are hundreds of instances where purchasers have made payments in lots, but have not made the final payment. The deeds cannot be issued until the final payment is made. These payments must not run over 60 days past due, and ten per cent interest is charged, but there is no way to enforce the payment of the interest or the last payments either, if the purchaser wants to let the property drop. In such cases the property reverts to the tribe and there it stands. They are found in every one of the 300 government towns in the territory. It is believed by the townsite department of the Indian agency that such relief will be provided in the Indian appropriation bill this session of congress.

Russians Want Mines.

The Chinese governor of the province of Hailungkaing, in northern Manchuria, having reported to Peking that the Taotai in charge of the mines in his province had handed over possession of a number of the Russian mines, the Taotai was arrested and sent down to be dealt with by the Viceroy Yuan Shikai. The Russians meantime require that the Chinese government shall recognize their title to the mines so acquired.

German Official Out.

By direction of Emperor William Foreign Secretary Tschirsky, at Berlin, has accepted the resignation of Baron von Holstein, chief of the department of higher politics in the foreign office. This action retires from public life a personage who more than any other has been responsible for German foreign affairs since Prince Bismarck's time.

Pigeon Plays with Kittens.

A. Hanford, of Spottsylvania, county, near Fredericksburg, W. Va., has a pigeon which has taken a great fancy to a family of little kittens at his home. The pigeon will go in the box where the kittens are, fight the mother away and play with the kittens until he becomes tired, then fly off and return later.

RAISING GARDEN HERBS.

This Is a Practical Occupation Open to a Woman Thrown on Her Own Resources.

Among the practical occupations open to women that are thrown upon their own resources without previous training in any sort of business is that of raising garden herbs.

There has never been a sufficiency of seasoning herbs to be had at any market; parsley, thyme, sweet marjoram, bay leaf, mint, are always in demand by those who know their value in the proper cooking of savory dishes. Their raising is neither difficult nor expensive. A small piece of ground will supply any large private market establishment or green grocer, and it is work that even a delicate woman can undertake.

But she must, first of all, instruct herself in the nature of the soil needed, the amount of sunshine, water and general habits of the things she is going to raise. To do this it is only necessary for her to visit any good library and study books on the subject, making notes and really learning, just as if she were at school.

Then she must study how to get the very best plants for her purpose; all florists and agriculturists are glad to send catalogues for the asking, and, while the gorgeous cuts exaggerate the fecundity and appearance of their wares, such catalogues are a help.

Once she knows the right soil to prepare, the rest is easy. If she has no boy neighbor to call upon to measure and define the various beds, she can simply the stout cords to sticks stuck in the ground to keep one variety from running over the other. The spading she may have to hire done, and the pulverizing of the soil, which is very essential to success, most failures being due to the caking of imperfectly prepared ground that either carries off the water that is applied or allows it to stand without penetrating the earth to reach the roots of thirsty plants.

Take the fragrant garden mint as a very fair example of an herb that is well worth cultivating. I have seen a single root spread in a couple of years over a 12-foot square of ground, and its healthy sprigs are always in demand. The woman who wills to do so can find a market for her mint the year round, if she will care that it will not freeze. Sweet marjoram grows fast also, as do all these seasoning herbs, and needs but little care when once started. Curly parsley makes a lovely garnishing for a dish of croquettes or for any sort of broiled meats or fish, and never can there be too much grown.

If to these be added chives and lentils, there are always purchasers for these greens that make such delicious spring salads. But this business must be properly attended to; if there is to be a livelihood in it, like everything else in this world, it amounts to nothing without a certain amount of care and trouble. If there is a sudden blizzard the plants must be protected; if the midsummer sun is too hot, some sort of shade must be evolved, and so on through the list of watchful precautions that are necessities to success.—St. Louis Globe-Democrat.

HOW TO KEEP WELL.

Sleep in Room Cooler Than Living Apartments Daily and Dash Cold Water on Chest and Throat.

You dread the cold room on rising? It need not be bitterly or dangerously cold, please remember.

A well ventilated house does not necessarily mean a cold house, and pure air does not have to be iced air. Extremes are very apt to be dangerous, and, while the lungs demand fresh air, that they may do their work well, too low a temperature is not wise. But the sleeping room room you are apt to have to spend most of your working and waking hours in.

You will feel better for having slept in a cool room, and if on rising you think it too cool just try those lively breathing and stretching exercises I suggested last week—adding a few arm swinging exercises.

Then sponge your chest, face and throat off with cold water, rub briskly till dry and rosy—fill the lungs a dozen times, and dress as quickly as possible; you'll find you feel so fresh and well that you will never again risk the discomforts and lack of rest attending a close sleeping room.

But if you hope to effect a cure permanent, not temporary, we must take care that nature's laws of health are obeyed.—Chicago Inter-Ocean.

Furniture Polish.

A good furniture polish may be made with one ounce of beeswax, half an ounce of Castile soap and one pint of turpentine. Pare the soap and wax, put them into a quart bottle and add the turpentine. Let it remain for 24 hours and shake the bottle to mix the ingredients. Next day shake it well again and fill the bottle with water. On the following day it should be of the consistency of thick cream, and it is then ready for use.

To Relieve a Cough.

For a simple cough cure roast a medium-sized lemon; when hot through cut and press the juice upon three ounces of pulverized sugar. Take a spoonful whenever the cough is troublesome.

Linoleum.

Linoleum should be well washed with soap and water and then rubbed over with sweet milk, and polished with a linen cloth. Use a polishing brush.

Eat one of Ring's Dyspepsia Tablets after each meal and you will not suffer with indigestion.

E. T. Whitehead & Co., Scotland Neck, Leggett's drug store, Hobgood.

CAKES AND HOT BREADS.

Some Recipes for Delicious Breakfast and Tea Cakes—A Fine Kind of Doughnuts.

Oatmeal Muffins.—One cup oatmeal, one and one-half pints flour, one teaspoon salt, two teaspoons baking powder, one tablespoon lard, two eggs, one pint milk. Sift together oatmeal, flour, salt and powder; rub in lard cold, add beaten eggs and milk; mix smoothly into batter rather thinner than cup cake; fill muffin pans two-thirds full; bake in good hot oven 15 minutes.

Swiss Tartlets.—Take one egg, its weight in stale cake crumbs and fresh butter, a tablespoonful of sugar, and a little flavoring. Beat up the butter to a cream with the sugar, add the cake crumbs and eggs, then flavoring, mixing all together. Line some patty pans with puff paste, and then a layer of apricot jam and a thick layer of the mixture. Bake a quarter of an hour in a sharp oven.

Cream and Buttermilk Doughnuts.—One and one-half cupsful of sugar, one each of sour cream and buttermilk, one beaten egg, one even teaspoonful each of soda and salt, a little grated nutmeg, and flour enough to make dough sufficiently firm to roll out only, for it ought to be as soft as can be handled.

Cocoanut Butter.—Sift together one pint of flour, a level teaspoon of salt, and two heaping teaspoons of baking powder; rub in lightly with the tips of the fingers one heaping tablespoon of butter; when this is done add one cup of shredded cocoanut and mix it well through the flour. Moisten with sweet milk to form a soft dough, roll out and cut into small biscuits, then bake in quick oven.

Indian Breakfast Rolls.—Three-fourths cup of molasses, one cup of sour milk, one and one-half cups flour, one cup Indian meal, one-half teaspoonful salt, one teaspoon saleratus dissolved in one tablespoon cold water and well beaten in the last thing. Bake 25 or 30 minutes in a moderate oven.—Farmers' Review.

Chicken and Celery Salad.—Prepare the chicken as for boiling. When done and entirely cold cut in little squares; if you want a white salad use only the white meat, reserving the dark for other purposes. Wash and cut the white parts of celery into half-inch pieces; place in a bowl of cold water until needed. Use a pint of chicken to two-thirds of a pint of chopped celery and a cup and a half of mayonnaise dressing. When ready to make up dry the celery and mix with the chicken, mingling a pinch of salt, white pepper or cayenne each, and mix it with the mayonnaise. Serve on a cold dish garnished with the white celery tips.

Shad-Roe Salad.—Wash one set of shad roes; put them in a saucepan, cover them with boiling water and add a teaspoonful of salt; put the lid on and simmer gently for 20 minutes. When done lift them carefully from the water and stand away until perfectly cold. Make a half pint of mayonnaise and set it away. When ready to serve remove the skin from the outside of the shad roe and cut them into thin slices. Put one onion slice in the center of the salad dish; arrange around it salad leaves that are stiff and fresh; heap the shad roe in the center, pour over it the mayonnaise and serve.

Lobster Salad.—Make cups of the crisp lettuce leaves now on the market, and break up the inferior leaves and mix with the salad, viz.: A pint of lobster, cut into small pieces, seasoned with French or other dressing and kept on ice until you are ready to complete. Mix with half of the dressing, and put a large spoonful of the lobster in each cup of salad, and add a teaspoonful of dressing on the top. Garnish the dish with parsley.

Lettuce Salad.—Pick each leaf over carefully, being careful not to break them. Shake off and drain in a net. Keep in a cool place until ready to serve. Arrange the leaves in a salad bowl as tastefully as possible and serve with French dressing or with sweetened cream.

If preferred, sugar, vinegar, salt and pepper may be used instead of the French dressing.—N. Y. World.

An Appetizing Cheese Cake.

One and one-half cups cottage cheese, two tablespoonfuls cream, one-half cup sugar, three eggs, juice and rind of a lemon, or if preferred a teaspoonful of vanilla, a teaspoonful of melted butter. Beat the eggs to a light foam, press the cheese through a colander, add all the ingredients to the cheese and beat until frothy and creamy. Line your dish with plain paste crust, put in the mixture and bake in quick oven for half an hour. This is sufficient for one cake only.

Drop Cakes.

Beat one-half cup butter with one cup of sugar until you have a perfect cream. Add one-half teaspoonful soda dissolved in one-half cup sour cream and stir into the mixture of cream and sugar. Then add, beating until very light, two and one-half cupsful of flour and nut meats, if preferred to fruit. Flavor with vanilla and drop spoonfuls on a buttered sheet or pan, and bake in a moderate oven.

To Keep Cut Flowers Fresh.

Cut flowers, so expensive at this time of the year, will be found to keep their freshness for days if they are given fresh water at night and placed in a covered tin pail in a cool, well-ventilated room.

For Babies Colds.

Bake an onion in hot ashes, rub the chest and back, also the soles of the feet.

A HARD LOT

of troubles to contend with, spring from a torpid liver and blocked bowels, unless you awaken them to their proper action with Dr. King's New Life Pills; the pleasantest and most effective cure for Constipation. They prevent Appendicitis and tone up the system. 25c at E. T. Whitehead & Co's drug store.

An eminent bacteriologist has a theory that trypanosomes in fish are responsible for the sleeping sickness in Uganda.

For that Dandruff

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a testimonial—"Sold for over sixty years."

Made by J. C. Ayer & Co., Lowell, Mass. Also manufacturers of SASSAPARILLA, PILLS, CHERRY PECTORAL.

Ayer's

CROCHETED SWEATER.

Directions for Making a New One with Revers and in the Latest Approved Style.

Procure 18 skeins of color, 2 skeins cream-white Germantown zephyr, 6 pearl buttons, bone hook.

Begin the sweater on the right front with color, chain 66, adding 2 stitches at the neck every other row for 4 designs. The design is formed by 4 rows as follows:

1st row—Single crochet in each chain, turn.

2d row—Single crochet, picking up back loop of the row before.

3d row—Single crochet, picking up both loops.

4th row—Pick up both loops and make 3 single, now use white, (*) drop the color, puri the white and repeat from (*).

Repeat from first row, using white yarn in every fourth row for dot, being careful to bring the dot in the middle of the three stitches. (No further mention of design will be made.)

Work next row to neck; chain 80 stitches to run over the shoulder and down the back; work back and forth for five designs, decreasing two stitches every other row at the bottom of the blouse to form pouch. Commencing at the waist line, work one design 9½ inches long for underarm piece; decrease to 8½ inches in the next design; work four more designs.

For the middle of the back work three designs on 60 stitches (the back should measure 14 inches).

Now make the other half of the sweater to match. Join the back. Work 10 rows of single crochet good and firm, up the front and across the neck; this goes under the collar.

Revers: Chain 12 stitches and make 15 designs; add 1 stitch at the outside of every other row for 5 designs; make 3 more designs without increasing. This is half of the collar; make the other side to match. Sew the revers to garment, and finish with buttons.

For the belt use a finer hook, and work 10 to 12 rows of single. In the first row take in the extra fullness at the front of the garment.

Sleeve: Chain 55 stitches; increase 1 stitch at both ends of the work in each row for 8 designs; make 1 design without increasing; narrow 1 stitch in the next 8 designs. This finishes the sleeve. Sew up.

For cuffs: Take up 36 stitches, and make 6 designs. Sew in sleeves, bringing fullness to shoulder.

EVA M. NILES.

A sweet breath adds to the joy of a kiss. You wouldn't want to kiss your wife, mother or sweetheart with a bad breath. You can't have a sweet breath without a healthy stomach. You can't have a healthy stomach without perfect digestion. There is only one remedy that digests what you eat and makes the breath as sweet as a rose—and that remedy is KODOL FOR DYSPEPSIA. It is a relief for your stomach, palpitation of the heart, and other ailments arising from disorder of the stomach and digestion. Take a little Kodol after your meals and see what it will do for you.
